### Professional Summary

Computer Science senior student seeking a Co-op training opportunity, primarily in Data Analysis & Business Intelligence (BI) and alternatively IT Support. Developing Excel and Power BI skills for practical industry experience.

### Education

#### Umm Al-Qura University

Bachelor of Science in Computer Science. GPA: 3.38/4.00

Makkah, Saudi Arabia

Expected Graduation: December 2026

### Skills

- Data & BI: Excel, Power BI
- DB & Querying: SQL (Oracle, MySQL), PL/SQL (Oracle)
- Development: Python, R, DAX
- IT Support: Basic troubleshooting, Windows fundamentals
- UI/UX: Figma, HCI basics
- Languages: Arabic (Native), English

### Projects

#### Excel Data Analysis Dashboard (Training Project)

*Excel, PivotTables, Power Query, Data Cleaning, KPI Dashboard*

- Cleaned a Kaggle dataset in Power Query (missing/duplicates/format issues).
- Built PivotTables and a KPI dashboard with slicers for trend/category analysis.

#### Power BI Analytics Dashboard (Training Project)

*Power BI, Power Query, Data Modeling, DAX, Data Visualization*

- Cleaned a Kaggle dataset and built a simple linked data model.
- basic DAX measures (SUM/AVG/MIN/MAX/COUNT) and an interactive dashboard with filters and drill-down.

#### TripMate Platform — Web Platform Connecting Tourists with Local Guides (BSc Capstone)

- Built a role-based platform with admin moderation and bilingual Arabic/English (RTL) support.
- Implemented guide search/filtering and a reviews/ratings system; designed a normalized MySQL schema.

#### Smart Arabic Handwritten OCR + Text Correction (Academic Project)

- Built a Flask pipeline using Qwen2.5-VL (OCR) and ALLaM-7B (Arabic proofreading) via prompt engineering.
- Evaluated on test samples: OCR accuracy 84.35%, correction accuracy 95.40%.

#### PointTrack — Student Club Event Points Management System (Academic Project)

- Built a JavaFX desktop app with role-based login and CRUD workflows backed by MySQL (JDBC).
- Displayed participants/points using JOIN queries; used prepared statements and a relational schema with FKs.

### Certifications & Training

- Power BI for Data Analysis — EMDAD ALMARIFAH FOR TRAINING | 30 hours | Feb 2026
- Data Analysis using Microsoft Excel — EMDAD ALMARIFAH FOR TRAINING | 30 hours | Feb 2026
- Project Management Professional (PMP) — EMDAD ALMARIFAH FOR TRAINING | 35 hours | Apr 2026
- Artificial Intelligence: Fundamentals & Advanced Applications — SDAIA | 2025
- Julia programming language — Umm Al-Qura University 2024
